Heather Campbell  
200 Schulz Dr.  
Red Bank, NJ 07303

Dear Heather:

I'd like to personally thank Ansell Healthcare Products for your generous support of Susan G. Komen's promise to save lives and end breast cancer forever. The success of your pink glove program has enabled Komen to expand our mission to discover and deliver the cures for breast cancer across the globe. I applaud everyone at Ansell Healthcare Products for their dedication and outstanding efforts.

With your help, this past year we were able to invest an additional \$75 million in research, increasing our number of active projects to 582. Another \$93 million was distributed in local communities, providing more than 600,000 women with free screenings and over 100,000 with treatment assistance. I have no doubt that lives were saved because of you.

As we head into October, Susan G. Komen will be focused on delivering "**Less Talk. More Action**" with the goal of increasing breast self-awareness and mammography screening rates to ensure the early detection of breast cancer. After all, in the 30 years since we began this journey, the 5-year survival rate for breast cancer, if found early, has risen from 74 percent to 98 percent. When it's not detected early? Only 23 percent. We must encourage women to take action now!

On behalf of my colleagues at Komen and the 2.5 million breast cancer survivors who are living today in the U.S., thank you for your continued support and tireless passion in the promise I made my sister. Together we are creating a world without breast cancer.

Warmest Regards,

A handwritten signature in black ink that reads "Nancy G. Brinker".
